

Hello Coaches,

I just wanted to send out a friendly mid season email with a few reminders.

Hopefully all coaches U-11 and up have been logging their scores. Logging your scores is a requirement win, lose, or draw and must be completed on or before the next Friday after your game.

To log your scores go to <http://www.ncyouthsoccer.com/schedules/index.asp>

Click Log Scores.

Login would be your age/division group (for example u16b1).

~~Enter a unique password of your own.~~ Enter your division again for your password (you will be prompted to enter a new password after access is granted).

Select your Division.

Select your Club Team Name (It may only appear as TB and your last name).

Click report score and enter the score.

If you haven't reported your scores I would go back and report the games you missed.

The other thing we should be doing is contacting the other coaches sometime the week leading up to your game. A simple email or phone call is appropriate and recommended to confirm game time and field location.

You can get a phone and email list of the teams that are in your division from the same location you report your scores. Look at the top of the page and click the link [Printable Contacts List](#).

If for some reason a game time doesn't work for you or the other coach the first thing you would need to do is contact Mark Schnell (his email is located on the TBSC website) for home games or the opposing club for away games. This is not always an option. All the clubs are short fields and rescheduling is not always an option. If a game does need to be rescheduled the sooner the clubs and coaches know the better.

Please as we start getting into the rainy season remember to move the goals at practice away from the main playing areas of the fields. We try very hard to get you and your players the best possible game fields. Your help in keeping them in good condition is appreciated (this includes picking up our own garbage).

Lastly it is going to start getting darker earlier so if you need a lighted field get in touch with Rani Kettle (Rani Kettles email can also be found on TBSC) and schedule time on one. It is first come first serve and they tend to go fast.

Feel free to contact me with any questions you may have including coaching questions if you have any.

Here is hoping your season is going great and I will see you on the field,

Adrian Siverson
